

Oświęcim 9.03.2022

## Product Declaration

Synthos SA has implemented the Circular Economy approach into its strategy and is realizing several circular economy projects mainly in the Polymer segment. The new group of products in our EPS portfolio which fully comply to the Circular Economy strategy are our grey EPS products with the name: InVento Optima. These products include recycled materials coming from recycling streams according to the definition of the EN 14021 standard and calculated with ISCC+ standard methodology. In terms of the compliance of our declarations with the EN 14021: 2016 standard, we are audited and certified by an independent certification body Bureau Veritas

Number of Bureau Veritas Statement : PL3896746

Hereby we as *Synthos Dwory 7 spółka z ograniczoną odpowiedzialnością spółka jawna* declare that in 2022 the percentage of recycled material, coming from post-consumer EPS waste, included in the composition of InVento Optima FRE product, manufactured in Oświęcim is above 20 % weight/weight.

Marcin Cebulski

EPS Product Manager.
